

BUA

When you think of DI, think of BUA!

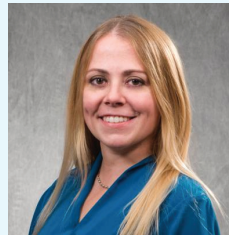

Income helps pay for everyday living expenses, gives us the freedom to do the things we love, and helps each of us plan for our future. Surprisingly, this is one area of risk that advisors and their clients "forget to insure."

BUA is here to help you to ensure your clients are properly protected against this risk.

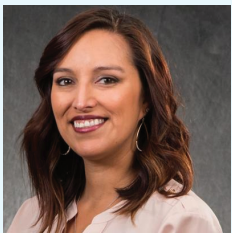

Contact us today for assistance with case design, product recommendations, underwriting questions, post-issue policy support, and more!
